

The Right Connections

Vertical Stacker

PlymoVent reserves the right to make design and technical changes.

PlymoVent's vertical stacker is designed to slip over any size vertical exhaust stack. Whether you work on over-the-road trucks, mining or construction equipment the vertical stacker can handle tailpipes as large as 250 mm/10" in diameter.

TECHNICAL DATA

Prod. no.	Dimension exhaust hose	Dimension nozzle	Weight without hose
STACK-125-200	125 mm/5"	200 mm/8"	2.7 kg/5.9 lbs
STACK-150-250	150 mm/6"	250 mm/10"	3.7 kg/8.1 lbs

Metal Exhaust Nozzle – MEN

The metal exhaust nozzle is the practical solution for dynotest applications, where exhaust gas temperatures are commonly in the range of 370-650°C/700-1200°F. The MEN style of nozzle is recommended for DYNO-TEST and Compressed Natural Gas engine service facilities.

TECHNICAL DATA

Metal exhaust nozzle is equipped with a spring loaded rubber lid which closes when the nozzle is not in use.

Prod. no.	For exhaust hose diam.	Dimension nozzle	Weight
MEN-75-100	75 mm/3"	Ø 100 mm/4"	1.3 kg/2.8 lbs
MEN-100-100	100 mm/4"	Ø 100 mm/4"	1.1 kg/2.4 lbs
MEN-125-125	125 mm/5"	Ø 125 mm/5"	1.7 kg/3.7 lbs
MEN-125-150	125 mm/5"	Ø 150 mm/6"	2.6 kg/5.7 lbs
MEN-150-150	150 mm/6"	Ø 150 mm/6"	2.4 kg/5.3 lbs
MEN-150-200	150 mm/6"	Ø 200 mm/8"	4.0 kg/8.8 lbs
